

### **Barry Buddon Beach Clean - 28th October 10am**

**By its nature as a bay, the beach between Monifieth and the point of Barry Buddon acts as a collection point for large quantities of flotsam and jetsam carried in from the North Sea, and washed down river from Dundee and the wider Tay estuary. The photograph below shows the results of just a couple of hours of work by volunteers at a beach clean earlier this year and gives an idea of the quantities of plastic and other rubbish on this beach. The volunteers were watched by a pair of dolphins which came close into the shore where everyone was working, and gave their seal of approval!**

**Why not join the next Monifieth Round Table organised Barry Buddon beach clean on Sunday 28<sup>th</sup> October from 10am to 12 noon. Volunteers are invited to meet at the main Barry Buddon Training Centre (BBTC) car park. To reach the BBTC car park from Carnoustie, follow the main A930 road to Monifieth and turn left in the town centre following the red military signs for Barry Buddon. Immediately having passed through the railway underpass turn left again and follow the road which runs alongside the railway and leads directly to the car park. Here a briefing will be given before volunteers are led in their cars to the beach area.**
