

BARRY BUDDON BEACH CLEAN UP - SUNDAY 13 OCTOBER 2019

Hidden from view from Carnoustie is the magnificent beach that runs from Buddon Ness to Monifieth. Home to a wide variety of birds, often passing dolphins can be seen, but for much of the year access to this beach is restricted because of live firing on the Barry Buddon ranges. As a result, a considerable amount of [flotsam and jetsam](#) is washed up on the beach which needs to be collected and removed. This includes some wonderfully bleached and sculpted driftwood. To this end, a beach clean-up is organized bi-annually by the Monifieth Rotary Club, who need as many people as possible to assist. Volunteers from Carnoustie are invited to take part in this worthwhile venture. If anyone is willing to give up a couple of hours of their time, they are invited to arrive at the Barry Buddon Training Centre (BBTC) car park **at 1000hrs on Sunday 13th October 2019.**

The event, which is suitable for both families and individuals, offers a wonderful opportunity to walk along the fantastic but usually inaccessible Barry Sands, whilst at the same time providing invaluable assistance to the BBTC in their conservation efforts, by collecting rubbish on the way. Normally the event lasts around two hours but naturally volunteers may leave whenever it suits. Do think about joining in – your contribution would be most welcome

To reach the BBTC car park from Carnoustie, follow the main A 930 road to Monifieth and turn left in the town centre following the red military signs for Barry Buddon. Immediately having passed through the railway underpass turn left again and follow the road (which runs alongside the railway) which leads directly to the car park. Here a briefing will be given before volunteers are led in their cars to the beach area.
